## National Price and Freight Surcharge Increase: Steep Slope Roofing

---

Dear Customers:

Due to increased raw material costs, GAF is announcing a price increase of **4 – 6% on all steep slope roofing, effective August 13, 2018.**

The price increase will take effect with shipments on Monday, August 13, 2018, regardless of order entry date. As we approach the increase, we will communicate specific price increases by product.

As a result of an escalation in transportation costs, **GAF will also increase the freight surcharge rate from \$200.00 to \$250.00 per shipment, effective August 13, 2018.** We will continue to apply freight surcharges to invoices for all products originating from GAF facilities. This includes all steep slope roofing products.

GAF will continue to monitor transportation costs and adjust the freight surcharge as necessary.

If you have any questions concerning this increase, please contact your local Territory Manager, National Account Manager, or Sales Manager.

Thank you for your continued support.
